

SAMYAM DHAUBAJI SHRESTHA

Data Scientist · Machine Learning & Analytics

samyam.shrestha@email.com | (555) 234-5678 | [linkedin.com/in/samyamshrestha](#) | [github.com/samyamshrestha](#) | Kathmandu, Nepal

PROFESSIONAL SUMMARY

Recent BSCS graduate from Westcliff University with a concentration in Artificial Intelligence and a strong foundation in statistical modelling, machine learning, and data engineering. Approaches data problems with methodical rigour — extracting meaningful patterns from complex datasets and translating findings into clear, actionable insights. Prefers thoughtful, async collaboration and thrives in environments that value precision and evidence-based decision-making.

EDUCATION

Bachelor of Science in Computer Science · Concentration: Artificial Intelligence

2021 – 2025

Westcliff University · GPA: 3.7 / 4.0 · Dean's List · Best Data Science Capstone

TECHNICAL SKILLS

Languages: Python, R, SQL, Scala, Bash

ML / Data Science: Scikit-learn, TensorFlow, PyTorch, XGBoost, LightGBM, Statsmodels, SHAP, Optuna

Data Engineering: Pandas, NumPy, Apache Spark, Airflow, dbt, ETL pipeline design

Visualisation: Matplotlib, Seaborn, Plotly, Tableau, Power BI

Cloud & MLOps: AWS (S3, SageMaker, Glue, Athena), MLflow, DVC, Docker, GitHub Actions

Databases: PostgreSQL, MySQL, MongoDB, Snowflake, BigQuery

Tools: Jupyter Notebook, VS Code, Git, Jira, Linux

SOFT SKILLS

Analytical Rigour · Examines assumptions and questions data quality before drawing conclusions. **Written Communication** · Translates complex statistical findings into clear written reports and dashboards for non-technical stakeholders. **Deep Focus** · Excels in long, uninterrupted analytical sessions — comfortable spending hours exploring a dataset. **Attention to Detail** · Spots data anomalies, leakage, and methodology flaws that others miss. **Self-Directed Learning** · Proactively studies new algorithms and tools independently; maintains a personal research reading list. **Methodical Problem-Solving** · Structures problems systematically before writing a single line of code. **Reliability** · Delivers well-documented, reproducible work on schedule with minimal supervision.

EXPERIENCE

Data Science Intern · DataVision Analytics · Remote

Jun 2024 – Dec 2024

- Built a customer churn prediction model using XGBoost and SHAP explainability, achieving 87% AUC-ROC.
- Designed and automated ETL pipelines in Python and Apache Airflow to ingest 10M+ daily records from multiple sources.
- Created interactive Tableau dashboards surfacing KPIs for the product and marketing teams.
- Conducted A/B test analysis with statistical significance testing, informing a feature rollout that lifted retention by 12%.
- Documented all experiments in MLflow, enabling full reproducibility across the data science team.

PROJECTS

NepalSentiment – Nepali Social Media Sentiment Analyser | Python · BERT · FastAPI · Streamlit

- Fine-tuned a multilingual BERT model on 30K labelled Nepali tweets, achieving 85% F1-score on sentiment classification.
- Built a Streamlit dashboard for real-time sentiment monitoring with keyword filtering and trend visualisation.

HotelEase – Hotel Reservation System | *PHP · MySQL · Bootstrap · JavaScript*

- Co-developed a full-stack hotel reservation web app with room availability tracking and online booking management.
- Designed a normalised MySQL schema and built analytics queries to surface occupancy and revenue insights for admin users.

CropYield AI – Agricultural Yield Predictor | *Python · Random Forest · Pandas · Plotly*

- Trained a regression model on historical climate and soil data to predict crop yields for Nepali farming regions.
- Performed feature engineering and hyperparameter tuning, reducing RMSE by 23% over the baseline linear model.

CERTIFICATIONS & AWARDS

- AWS Certified Cloud Practitioner (2024)
- DeepLearning.AI – Machine Learning Specialization (2023)
- Google – Data Analytics Professional Certificate (2023)
- Westcliff University – Best Data Science Capstone Award (2025)
