

John Anderson

Senior Python Developer

San Francisco, CA | +1 (555) 123-4567 | john.anderson@email.com

Professional Summary

Senior Python Developer with 8+ years of experience designing, developing, and deploying scalable backend systems, cloud-native applications, and microservices. Expertise in Python, Django, FastAPI, distributed systems, API development, DevOps practices, and cloud platforms.

Technical Skills

Python, Django, FastAPI, Flask, SQLAlchemy, PostgreSQL, MySQL, MongoDB, Redis, Elasticsearch, AWS, Docker, Kubernetes, Terraform, GitHub Actions, Jenkins, Kafka, RabbitMQ, Linux, REST APIs, GraphQL, Microservices.

Professional Experience

Senior Python Developer – ABC Technologies (2021–Present)

Designed high-performance microservices using Python, FastAPI, and PostgreSQL serving millions of requests daily. Reduced API response times by 40%, led Kubernetes migration projects, and mentored developers.

Python Backend Developer – XYZ Solutions (2017–2020)

Developed RESTful APIs with Django, built ETL pipelines processing large datasets, and improved database performance through optimization strategies.

Projects

Cloud-Native E-Commerce Platform

Built scalable backend services using FastAPI, PostgreSQL, Docker, Kubernetes, and AWS.

Real-Time Analytics Platform

Developed event-driven data pipelines with Kafka, Redis, and Elasticsearch.

Education

Bachelor of Science in Computer Science, University of California, Berkeley (2011–2015)

Certifications

AWS Certified Solutions Architect – Associate | AWS Certified Developer – Associate | CKAD
